### RESIDENTS' PARKING SCHEME

#### Council Letter

All properties affected in Chester Green in the City Rd and Old Chester Rd triangle, Vivian St., Roman Rd., Auriga Court, Drage St. and Caesar St. should now have received the letter from Derby City Council informing residents about the proposed temporary residents permit parking scheme to be introduced on 4th January 2016.

#### Flood Defence Disruption

The no cost scheme is intended to minimise disruption to residents and their visitors for the next two years during flood defence construction work which will result in the loss of several off street car parks.

The permit parking scheme will operate between 8am and 6pm, seven days a week. The "Access Only" restrictions on Chester Green Rd., Mansfield St., John Lombe Drive and Seale St. will be temporarily revoked during the scheme as the council

say the restriction will become redundant following the introduction of residents permit parking.

#### Six month Trial

Once the scheme commences there is a period of six months where residents and other members of the public have the opportunity to comment and object to the restriction. The council will then decide whether to make the scheme permanent, modify it or abandon it.

The letter says that the council will write again in early December informing how to apply for permits and providing more details on how the scheme will work.

#### Assurances to be sought

Having received no detailed discussion on the scheme, the Residents Association will be requesting assurances on issues including

- visitor access to residents,
- visitor access for churches, community centre and businesses
- multiple vehicle ownership

to ensure all issues have been properly considered and catered for in the proposed permit scheme.

### Prepare for an emergency - using your mobile phone

- If you need to ring the emergency services on your mobile and you are unable to get a good signal to ring 999, ring 112 instead. This is because 112 uses GPS technology, the same as in a Sat Nav, so the signal goes upwards rather than sideways via BT and the emergency services are able to pinpoint the location of a 112 call to within a few feet rather than to within a quarter of a mile through 999.
- It is a good idea to have at least one ICE (In Case of Emergency) number in your mobile directory. The emergency services then know who to contact if you are in an accident or taken ill and unable to make the call yourself. You simply need to put ICE next to the name of the person you would wish to be contacted. You can have more than one contact by using ICE1, ICE2, ICE3 etc.

### Big Thank you to our Volunteers.

I don't know of many other areas with a local News Letter produced and distributed entirely by volunteers— something to celebrate about Chester Green, I think. It's only possible because of a super team of volunteers. So thank you, thank you to:

- Marie and Andrew - who print and fold the News Letter (all 800 copies!).
- And, just as important, Bev, Iris, Ali, Julie, Geoff, Sarah, Tom, Margaret, Bruce, Rachel, Michael, Shirley, Rhian, Laurence and Marie, who go out in all weathers to distribute it.

### Christmas Quotes

"Maybe Christmas," he thought, "doesn't come from a store. Maybe Christmas ... perhaps ... means a little bit more!"

*Dr. Seuss—The Grinch who stole Christmas*

I heard the bells on Christmas Day  
Their old, familiar carols play,  
And wild and sweet the words repeat  
Of peace on earth, goodwill to men! -  
*Longfellow*

Heap on the wood! -the wind is chill  
But let it whistle as it will,  
We'll keep our Christmas merry still.

### A Resident reflects on Autumn in Chester Green

Autumn in Chester Green is quite a special time. We are so lucky to live in an area that is so much like the country, whilst being so close to the City.

Whilst some people find the massive influx of litter a problem when the trees shed their leaves, they can become quite a topic of amusement and entertainment. When the trees drop their leaves all at once, they accumulate in such a perverse way, leaving drifts two feet deep in places, and other parts completely bare. It brings such a smile to see grown men and women walking through these deep piles, kicking up the leaves and giggling like young children.

And then the perversity of nature strikes. StreetPride do a wonderful job trying to keep the pavements clear. Recently, they had spent a whole morning doing a tremendous job.

Then the wind blew again. Hard. By the evening the pavement by the bus stop was over two feet deep, and the leaves were dancing like dervishes. So amazing.

The following morning was even better. It seems that the wind genie had taken against one particular resident near to the Ale House. A high wall of leaves had arranged themselves around this resident's front door and side door, making sure that he could not escape without braving the malevolent wall.

Where else would this happen but Chester Green? I know of nowhere better, do you?

*Mark Davis*
